SUMMARY

Enthusiastic and quick-learning student from the Department of **Artificial Intelligence and Data Science (AIDS)**, specializing in **Cybersecurity** and Artificial Intelligence. Possesses a solid foundation in Python programming and a keen interest in **AI/ML technologies**. Eager to advance skills in **data analysis**, **machine learning model development**, and secure AI systems. Known for a strong **problem-solving mindset**, commitment to continuous learning, and passion for applying emerging technologies to real-world challenges. Highly motivated to contribute effectively within dynamic and innovative teams.

EDUCATION

KL University	2022-2026
<i>Bachelor of AIDS in Artificial Intelligence and Data Science, Vijayawada</i>	<i>CGPA -9.2</i>
New Vision College	2020 – 2022
<i>State Board Of Telangana, Khammam (Grade 12)</i>	<i>96%</i>
New Vision Junior School	2020
<i>State Board Of Telangana, Khammam (Grade 10)</i>	<i>98%</i>

TECHNICAL SKILLS

Languages/Databases: C,Python,SQL,MySQL,

Applications: Power BI,Tableau

Data Science: Random Forest, Regression, classification,K-Nearest Means, Neural Networks

EXPERIENCE

Cybersecurity Virtual Intern | SlashMark

- * Completed a **virtual internship** focused on core cybersecurity concepts and **real-world applications**.
- * Learned to work with **cybersecurity tools** for threat detection, network security, and data protection.
- * Collaborated in virtual team discussions, sharing insights on securing digital systems and improving online safety measures.
- * Completed hands-on tasks such as **configuring firewalls**, setting up secure **user authentication**, and performing basic penetration testing exercises.

ACADEMIC PROJECTS

Online Book Store (Python Full Stack Development)

- Developed a **dynamic web application** to browse, search, and purchase books using **Python** and **Flask/Django** (specify framework used).
- Added **admin functionalities** to manage book listings, track sales, and generate order reports.
- Created responsive **Front-end interfaces** using **HTML**, **CSS**, **Bootstrap**, and JavaScript for an intuitive user experience.

Learning Management System

- Designed and developed a **full-featured Learning Management System (LMS)** to manage online courses, student enrollments, and instructor content.
- Managed relational database design (**MySQL/PostgreSQL**) for storing user profiles, course content, assessments, and performance reports.
- Enabled instructors to **upload study materials**, assignments, and monitor student progress through detailed analytics.

LEADERSHIP AND VOLUNTEER EXPERIENCE

- Spearheaded the core organizing team for high-impact university events, coordinating 500+ students, faculty, and industry experts to deliver seamless experiences related to technology and cybersecurity awareness.
- Actively engage in project-based learning, focusing on practical AI, ML, and cybersecurity projects, including chatbot integration for smart security solutions.
- Motivate peers and maintain a positive team environment by encouraging collaboration and supporting team morale.
- Consistently demonstrate leadership by guiding peers through technical projects, group discussions, and collaborative problem-solving in AI and cybersecurity contexts.
